Reusable Blood Pressure Cuffs

Reuse with Confidence

We build our reusable cuffs with a strong polymer that can withstand up to 10,000 inflations. Then we add rounded edges for patient comfort and color coding for easy size identification. The result? An intuitive, comfortable cuff that you can depend on time and time again.

The Right Size Every Time

Choosing the right size cuff for each patient ensures accurate readings and allows less room for error. The chart below will help you determine the correct cuff size based on the patient's upper arm circumference. Please note that if you choose a cuff that is not the appropriate size, readings may not be accurate.
