

ZR[®] Pre-Filled Flush Syringe

Reduce the risk of syringe-generated blood reflux.

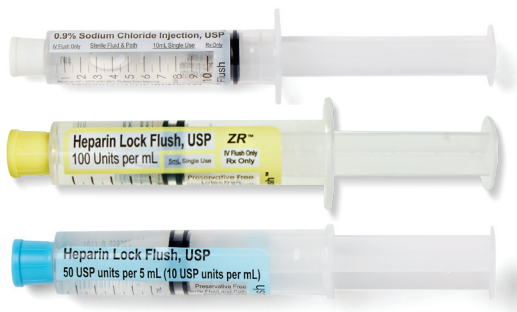

Flush away catheter issues with the right syringe and help improve patient safety.

Features

- Clearly marked saline or heparin labels help lower risk of medication error
- Made without natural rubber latex
- Preservative-free
- Terminally sterilized for added safety
- Barcoded to speed up inventory control and minimize errors

Item No.	Description*	Pkg.
EMZE010001	10mL saline in 10mL syringe	600/cs
EMZ111240	10mL saline in 10mL syringe	240/cs
EMZE010055	5mL saline in 10mL syringe	600/cs
EMZ151240	5mL saline in 10mL syringe	240/cs
EMZE010035	3mL saline in 10mL syringe	800/cs
EMZ131240	3mL saline in 10mL syringe	240/cs
EMZE010030	2.5mL saline in 3mL syringe	800/cs
EMZ10091280	Sterile field 10mL saline in 10mL syringe	280/cs
EMZE050055	5mL of 10U/mL heparin in 10mL syringe	600/cs
EMZ50051240	5mL of 10U/mL heparin in 10mL syringe	240/cs
EMZE060055	5mL of 100U/mL heparin in 10mL syringe	600/cs
EMZ60051240	5mL of 100U/mL heparin in 10mL syringe	240/cs

*Unit dose packaging—ready to use
