

UTILIZATION REVIEW

Ensures surgical packs are clinically effective.

Surgical Supply Management Solutions

When custom packs are reviewed regularly **EFFICIENCY GOES UP AND COSTS GO DOWN.**

Every day, your O.R. is under pressure to increase efficiency and reduce waste. How do you solve these challenges and get back to focusing on your patients?

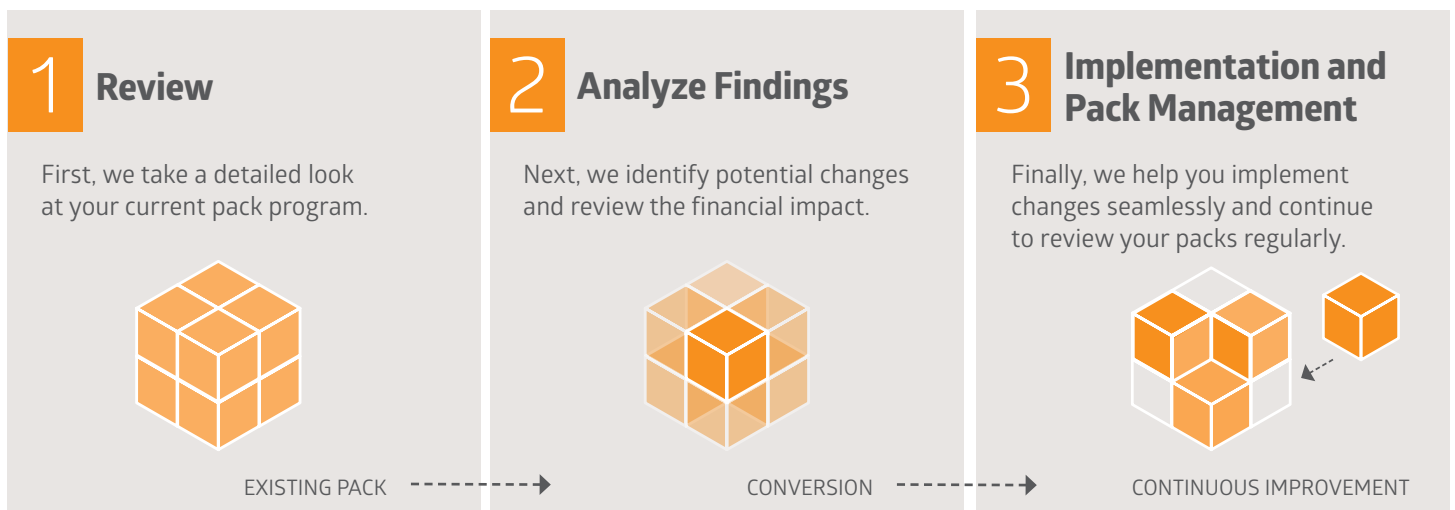

A consultative pack review is a great place to start. A Medline Utilization Review is detailed, efficient and clinically effective. Our clinical experts will examine every surgical pack to ensure optimum utilization and performance.

We make sure your surgical team has the right components for the right procedure in the right pack, reducing medical waste and saving product-dollars. The result? You can get back to what matters most: your patients. **This is your O.R. more powerful.**

GET THE MOST OUT OF YOUR PACKS.

Our clinical experts are hands-on professionals. We make sure surgical packs are clinically useful and user friendly. Your Medline Utilization Review will determine how often pack components are used; what components are missing; and what components should be replaced or eliminated.

Medline Utilization Reviews can help you:

- » **Improve efficiency.** We identify unnecessary components and make sure you never waste your money or pack-space on them again. Right product, right place, right time.
- » **Go green.** We offer components made with materials intended to help generate less of an environmental impact.
- » **Increase savings.** In the ever changing healthcare environment, we can help you find alternative components that are both clinically effective and cost efficient.
- » **Satisfy end users.** We can help you keep O.R. professionals in top form by including surgical components that satisfy their preferences and meet quality standards.
- » **Achieve safety protocols.** Protect your patients and staff with components customized to support hospital driven safety initiatives.

FAST 5: ANSWERS TO YOUR QUESTIONS.

1.

Who will conduct my Utilization Review and what are their credentials?

You can be confident in the medical professionals conducting your pack reviews. Our clinical experts have an average of over 15 years of experience working with surgical packs.

2.

Will I have to spend a lot of time facilitating the review process?

No, our clinical experts do the work for you. First, we review your current pack program on site, then analyze our findings and recommend changes. Implementation is simple and seamless.

3.

How does a Utilization Review help support my safety initiatives?

When surgical packs are reviewed regularly, you can be sure the contents are customized to help improve sharps safety, lessen the risk of surgical mistakes and minimize medication error.

4.

Why do a Utilization Review when our surgical packs are already perfect?

Utilization of components can change over time. By reviewing your setup for cases together, we can make suggestions to help you lower your costs.

5.

How will a Medline Utilization Review help me cut costs?

Your Medline team can help you identify several ways to reduce your cost and increase efficiencies. With the Medline Choice Program, we can recommend alternative components that are both cost efficient and clinically effective.

Ask your Medline Representative about a Utilization Review today or visit medline.com for more information.
